2019/2020 Jefferson County CWPP Fuels Reduction, Phase III

Application Instructions

Summary: Central Oregon Intergovernmental Council in a collaborative effort with the Jefferson County Fire Chiefs is offering private landowners the opportunity to apply for funding in an effort to minimize fire danger as outlined in the Jefferson County Community Wildfire Protection Plan (CWPP). Residents that are eligible will be offered a flat rate reimbursement of \$300 for treating the land around their home to the Oregon Forestland-Urban Interface Fire Protection Act (SB360) standards.

The goal of SB360 is to minimize fire danger in subdivisions and neighborhoods and make firefighting safer and more effective; many of the standards are available in the Living with Wildfire in Jefferson County handbook which can be found online at www.livingwithwildfire.info. Fire chiefs will be responsible for assuring that the standards have been met prior to dispensing funds. The overall goal of this project is to reduce the threat of catastrophic wildfire to homes in high risk areas by reducing hazardous fuels on private lands.

Funding and/or technical assistance is available to assist homeowners/landowners with completing defensible space projects. The Fire Officials are trained evaluators of the SB360 rules and will assess and certify properties as requested.

Applications are being accepted now. All grants must be completed by June 15th, 2020.

Applications Eligibility and Requirements:

1. The land owner must a) own a dwelling approved for occupancy on their property (this does not include sheds, pole barns and other non-habitable buildings); b) reside in a “high density Wildland Urban Interface”, otherwise referred to as WUI in the 2016 Community Wildfire Protection Plan; and c) complete the project by 12/01/19. The eligible communities are listed below. Here is a link to the Plan and associated maps for more information.

<https://coic2.org/community-development/community-forestry/jefferson-co-cwpp/>

At risk communities include the following.

- Ashwood-Antelope
- Crooked River Ranch
- Dizney
- Gateway
- Grandview (Air Park, Rim Park and Forest Park)
- Grizzly Saddle
- High Chapparral
- Juniper Butte
- Juniper Crest
- Madras Ranchos/Canyon View
- North Madras Heights
- Round Butte
- Shamrock Estates
- Three Rivers
- Street Creek/Upper Metolius/Montgomery Shores

2. The application must be approved by the Fire Official prior to the area being treated and the homeowner being compensated.
3. The homeowner must submit an application with a minimum of three (3) pictures of the area they would like to treat.

2019 Jefferson County CWPP Fuels Reduction, Phase III
Application

Step 1: Fill out the application and include **(3) images of the area to be treated.**

Step 2: Send the application to COIC via email (preferred) or mail.

Email: Dana Greenwald dgreenwald@coic.org

Mail: Central Oregon Intergovernmental Council
Attn: Dana Greenwald
334 NE Hawthorne Ave., Bend OR 97701

Step 3: Your project will be reviewed by your region's Fire Chief. If needed, additional documentation or clarification may be requested of you by COIC.

Step 4: Once reviewed, you will be notified by COIC (via email or phone) whether or not your project is approved and if you can proceed.

If you have questions, contact Dana Greenwald at dgreenwald@coic.org or call 541-548-9535.

Community or Subdivision:

Name:

Property Address:

1. Briefly explain the financial need for this grant:

Describe how the grant will help you increase your defensible space.

Example: We need to hire a contractor to help with fuels reduction but do not have the financial capability to do this.

2. Have you applied for other funding assistance to support this project or a similar project?

Have you received funding assistance from any other agency to complete wildfire mitigation?

If so, please describe the funding source and amount awarded.

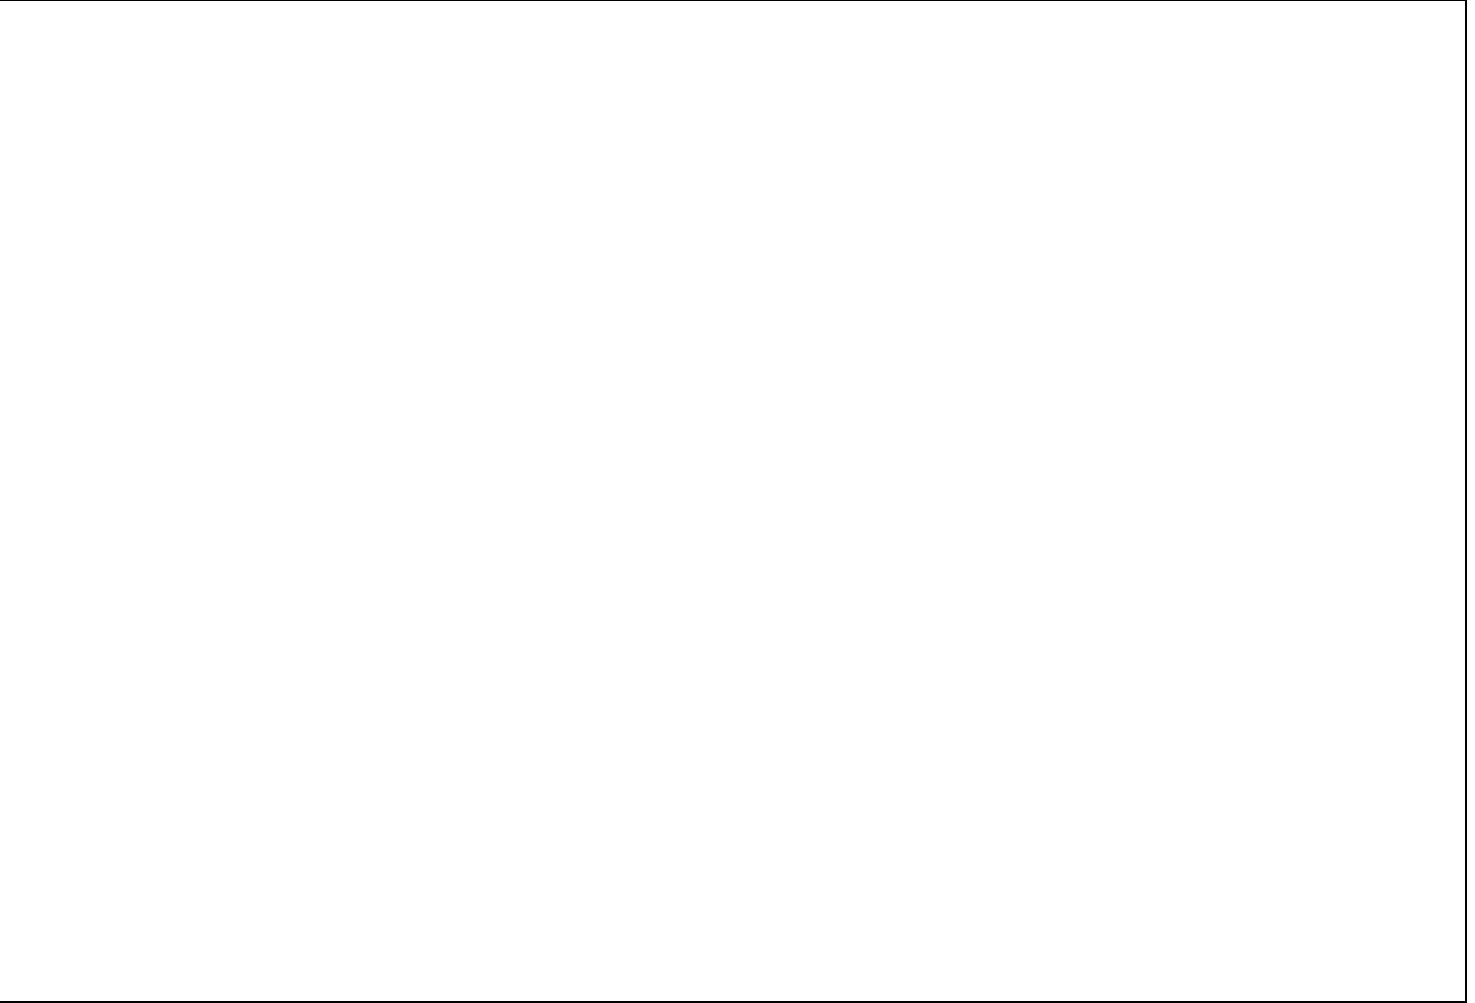

3. Project Overview and Area Description

Briefly explain your project, what you plan to do and a description of the area and scope of work.

Name:

Property Address:

4. Please include an illustration and photos (3) indicating structures to be treated. 30' primary and 100' secondary defensible space areas.

5. Project Longevity / Maintenance

Clearly explain your maintenance plan for the next 3-5 years. How will this work remain effective without additional grant support?
